**Inspection**

**Type: ROUTINE INSPECTION**

**Date: AUG-24-2006**

**2.33 (b)(5)**

**ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.**

Adequate pre-procedural and post-procedural care in accordance with current established veterinary medical and nursing procedures.

(b)(4) According to the protocol, (b)(4) is to be administered post-op for a dural scraping. There is no record of buprenorphine being administered following a Dural scraping performed on 8/16 & 8/18 2006. Post procedural care must be performed as stated in the protocol to ensure animals receive proper medical care and pain is minimized. An evaluation of documentation procedures to ensure animals receive post-op care must be initiated. Correct by August 30, 2006 or before next scheduled procedure.
